Folding Handle and Cover

Crank Casement/Awning
Casement and Awning Narrow Frame
French Casement

Casement operators under 20" frame width use a dyad operator which requires an opposite handed cover.

NOTE: When ordering a handle for a unit with a Casement dyad operator, order a RH part number for a LH operator and vice versa.

NOTE: Awning units always require LH handles and covers.

NOTE: LH parts will be sent in a white bag and RH parts will be sent in a red bag.

Screen Replacement

Screens are available with aluminum or wood surround. Standard mesh is Marvin Bright View™. Aluminum mesh is available as an option in black, charcoal, bright aluminum, or bright bronze. Aluminum surrounds are available in Satin Taupe, Bronze, White, Brown and Pebble Gray.

NOTE: The Aluminum Screen will be the standard for units with a frame size height of $\leq 54 \frac{1}{2}$ ", with an option of the Extruded Aluminum Screen available. The standard screen for any unit with a frame size height $> 54 \frac{1}{2}$ " will be the Extruded Aluminum Screen.

NOTE: Screens are ordered by the outside measurement (OM) of the screen.

To order, specify:

1. Original order number;
2. size; If there is no existing screen to obtain the OM of the screen, determine the size of the screen by using the conversions and chart. The daylight opening is the measurement of the visible glass.
3. surround color;
4. mesh type.

NOTE: Not shown: Screen mesh cartridge (which consist of a mesh roll, screen tube, free spin plug, spring assembly) can be ordered separately for warranty purposes.

Ultimate Push Out Casement

Ultimate Push Out Awning

Ordering Retractable Screen Mesh Cartridges, specify:

- 1. Outside Measurement (OM) of screen or Call Number (Casement/Awning). OM of screen* (Casement/Awning Narrow Frame). Use one of the following along with the conversion chart to determine the OM of screen.
 - a. Original order number and line number. If you do not have the original order number, use options below.
 - b. Frame size.
 - c. Measure the Retractable Screen OM (see illustration). Precise measurements are extremely critical for optimal fit.
- 2. Handing (if Casement);
- 3. Wood species;
- 4. Gliding block color;
- 5. Track color.

*NOTE: Screens CAN ONLY be ordered by screen OM for Casement/Awning Narrow Frame products.

NOTE: Converted measurements from DLO to frame size will NOT work.

Frame Size to OM of Retractable Screen	-2 3/8" (60)	-3 5/16" (84)

Ultimate Casement

Ultimate Wood Awning

To order Retractable Screen parts, specify:

1. Outside Measurement (OM) of screen. OM is mandatory. Use one of the following along with the conversion chart to determine your screen OM.
 - a. Original order number and line number. If you do not have the original order number, use options below.
 - b. Call number or frame size. Use the call number, if possible. NOTE: Converted measurements from DLO to frame size will NOT work.
 - c. Measure the Retractable Screen OM. Precise measurements are extremely critical for optimal fit.
2. Profile number;
3. Type of unit:
 - a. Casement: left hand or right hand operation for casement (as determined from the location of the hinges on the exterior of the unit);
 - b. Awning: left or right hand track and/or cover (as determined by the location of the part viewed from the exterior of the unit);
4. Finish;
5. Species (if applicable);
6. State "Prep for Window Opening Control Device" when applicable;
7. Flexible seal on Track and Track Cover, and Pull Bar weather strip color will match Glide Block color (please specify).
